

# ITrust: Computational Methods in Historiography

Workshop – 22 April 2026 – Academic Conference Centre, IP CAS, Jilská 1, Prague

- 10:15 - 10:30**      **Opening**
- 10:30 - 11:15**      **Early Modern Encyclopaedism and Metaphors of Knowledge: A Potential of Static Embeddings for Cross-Corpora Comparison of Semantic Spaces**  
*Petr Pavlas* (Institute of Philosophy, CAS, Prague)
- 11:15 - 12:00**      **“Remote Sensing” Conceptual Ecosystems: History of Ideas at Scale through Contextual Embeddings and Phylogenetics**  
*Vojtěch Kaše* (CCS-Lab, University of West Bohemia, Pilsen)
- 12:00 - 14:00      Lunch break
- 14:00 - 14:45**      **Socio-Spatial Situatedness of Roman Professions and its Impact on Religion in the Roman Empire: A GIS Modeling Approach**  
*Tomáš Glomb* (Masaryk University, Brno)
- 14:45 - 15:30**      **An Ancient Recipe Knowledge Graph**  
*Sean Coughlin* (Institute of Philosophy, CAS, Prague)
- 15:30 - 15:45      Coffee break
- 15:45 - 16:30**      **Creating Bespoke HTR (Handwritten Text Recognition) Solutions for Complex Historical Manuscripts with Generative AI [online]**  
*Georgiana Hedesan* (University of Oxford)
- 16:30 - 17:15**      **LLM-Assisted Detection of Scholastic Structure in Historical Documents**  
*Joakim Skarding* (Institute of Computer Science, CAS, Prague)
- 17:15 - 17:30      Tea break
- 17:30 - 19:00      **What the Dynamics of Chemical Knowledge Reveal About the Unfolding of Scientific Knowledge [keynote lecture]**  
*Guillermo Restrepo* (MPI for Mathematics in the Sciences, Leipzig)
- 19:00 - 22:00**      **Closing, dinner, and informal evening**

This event is organised within the project OP JAK: Knowledge in the Age of Distrust, CZ.02.01.01/00/23\_025/0008711.

Co-funded by  
the European Union
